June 14, 2021

Effective immediately the Fontana Fire Department has issued a burning ban for the Village of Fontana until further notice, citing severe dry conditions, red flag warning by the State of Wisconsin and forecasts for warm, windy conditions with little to no anticipated imminent prolonged rainfall.

Prohibited during this ban will be any open burning, all forms of outside burning, campfires, recreational fires, **private** fireworks display unless a permit has been obtained and the fire department is on location or discharge of any kind of legal and illegal fireworks. All grilling on public property is prohibited. Residents are strongly urged to constantly supervise all outdoor grilling on private property and to extinguish all grills prior to leaving the cooking area and have extinguishment material readily available.

This burning ban will be in effect until climate conditions improve and the ban is lifted by the fire department.

Respectfully

Wolfgang Nitsch  
Fire Chief  
Village of Fontana
